Brought to you by ORTHOWORLD®

OMTECexpo.com

OMTEC's mission is to EDUCATE, CONNECT and EMPOWER the people who build orthopedic products.

The orthopedic industry continues to evolve at an exciting pace. As ORTHOWORLD projects the global orthopedic market to reach \$70 billion in revenue in 2026, manufacturers and suppliers are doubling down on innovation, operational excellence, and trusted partnerships. Success in this climate requires more than great product. It demands meaningful connections and shared knowledge.

That's where OMTEC comes in.

Now in its 20th year, the Orthopaedic Manufacturing & Technology Exposition and Conference remains the only event in the world dedicated exclusively to the orthopedic manufacturing community.

For exhibitors, OMTEC delivers a powerful platform to showcase capabilities, forge new relationships and

strengthen existing partnerships. In fact, orthopedic OEMs consistently cite networking and supplier engagement as their top reasons for attending. You'll meet decision-makers and influencers from R&D, supply chain, procurement, operations and executive leadership. All looking for the expertise and innovation your company offers.

OMTEC is more than a trade show. It's a community hub where orthopedic leaders come to learn, solve problems, and move the industry forward together. As an exhibitor, you'll not only gain visibility, you'll gain access to the people and ideas shaping the future of orthopedics.

We invite you to join us in Chicago in June 2026 and position your company as an essential solutions provider at the industry's most trusted and focused event.
